

TEAM SCREAM SMITH-COTTON ROBOTICS ENGINEERING AND MATHEMATICS

Announcement

FRC Team #4522, Team SCREAM is proud to announce the inauguration of the Missouri Robotics State Championship (MRSC). The highest ranked *FIRST* Robotics Competition teams from Missouri will face off in this one day event to crown a state champion.

Event Details

Location: Mathewson Exhibition Center, Sedalia, MO

Date: Saturday May 9, 2015

Cost: \$350 registration fee per team

Selection Details

Invitation only event for the top 32 ranked Missouri teams

Top 8 teams will be alliance captains

Alliances will be made up of 4 teams

Invitations will be announced once all Missouri teams have completed their regional schedule

If a team declines an invitation the next ranked team in line will move up

Ranking Details

Ranking will be based off the District Standard Ranking System [Click Here](#) for link to ranking system

Points will be based upon team's first two events. Teams that only participate in one event will have their points doubled

Culture Award points will not be doubled. Ex. Chairman's, etc.

Competition Details

Official *FIRST* field, FMS, rules, etc. from the 2015 season

Team load in will be on Friday night and/or early Saturday morning

Field will be open for connectivity and sensor calibration before exhibition matches

Exhibition matches will be played in the morning (does not affect rankings)

Alliance selections before lunch

Elimination matches after lunch

Awards ceremony at the conclusion of elimination matches

Bag and Tag Rules

Teams will follow bag and tag rules until their final event. After that point teams are allowed to make modifications to their robot if they so choose. In an effort to prevent teams from bringing 100% brand new robots to the event we request that teams make no more than 30 lbs. worth of improvements to their competition robot. An honor system will be in place.

Robot Inspections

Teams will be required to follow all robot safety and inspection rules. Teams will be required to be checked for size and weight compliance. It will be up to Safety inspectors to perform more detailed inspections if they deem it necessary. Teams should be competition ready when they arrive with their robots.
