

2015 Rule Changes

29 April 2015

All Recycle Rush rules apply, with the exception of the rule modifications given below:

Autonomous

Table 1-1: Auto Point Values

Action	Value
ROBOT fully contained by Auto Zone	2 points each
TOTE fully contained by Auto Zone	2 points each
CONTAINER fully contained by Auto Zone	3 points each
STACKED TOTE SET	20 points

Set requirements have been removed from autonomous scoring.

Teleop

During TELEOP, YELLOW TOTES may be scored the same as GRAY TOTES.

G24 ROBOTS may not cause TOTES, RECYCLING CONTAINERS, and/or LITTER to completely transfer from their side of the FIELD, or from the STEP, onto the opposite side of the FIELD.

VIOLATION: FOUL for each **GRAY TOTE, RECYCLING CONTAINER, or LITTER**. If egregious or strategic, RED CARD and offending ROBOT will be DISABLED.

Intent: To remove the penalty for accidentally knocking over YELLOW TOTES while attempting COOP.

G33 LITTER may be introduced onto the FIELD only during TELEOP and only in the following ways:

A. through the LITTER CHUTE, or

B. over the ALLIANCE WALL.

VIOLATION: FOUL per LITTER.

Intent: To allow LITTER to be transferred to RECYCLING CONTAINERS over the wall throughout TELEOP.

G33b LITTER may not be transferred over the STEP until the last 30 seconds of TELEOP.

VIOLATION: FOUL per LITTER.

Intent: To lessen the likelihood of LITTER interfering with scoring TOTES without removing the possibility of scoring UNPROCESSED LITTER points.

Playoffs

5.4.4

Round 1: QF1 (A4 vs. A5), QF2 (A3 vs. A6), QF3 (A2 vs. A7), QF4 (A1 vs. A8)

Round 2: QF5 (A4 vs. A6), QF6 (A3 vs. A5), QF7 (A2 vs. A8), QF8 (A1 vs. A7)

Round 3: QF9 (A3 vs. A8), QF10 (A4 vs. A7), QF11 (A2 vs. A5), QF12 (A1 vs. A6)

Additional alliances will be added to the QF rounds if there are more than 24 teams at the event.
