

Team 6643

# Walden Robotics

## THE MONTHLY REPORT

February 26, 2024

*In preparation for the FIRST Wisconsin Regional held in early March, Team 6643 has been meeting every day during the school week at Walden. We have collectively worked together to finish the construction, wire management, and programming of the robot.*

*In early February, Team 6643 took a trip to Madison, where our team used a practice field to troubleshoot any programming or technical issues with our robot. After attending this test run, we are now closer to the finalization of our robot-building structure and competition game strategy.*

*Our team hosted a school fundraiser where students bought strips of tape to stick a teacher to the wall during our school's monthly town hall. We were able to raise funds for over 600 feet of tape!!!*

## IMPORTANT DATES

- **Test Run #2: Mukwonago**
  - 1st Week of March
  - A mock game to run practice matches, further preparing for the Wisconsin Regional
- **FIRST Wisconsin Regional:**
  - March 16-17, 2024
  - 54 teams will compete
  - You can watch us on Twitch at <https://www.twitch.tv/firstinspires> or see our results at <https://www.thebluealliance.com/event/2024wimi>. Just look for a robot with the numbers 6643!

## FUTURE PLANS

- Wisconsin Regional 2024: Milwaukee, WI
  - March 16-17, 2024; 8:30 am - 6:00 pm
  - UW-Panther Arena
  - Free Admission
- 8th Grade Robotics Experience
  - All 8th-grade students participate at Walden
  - Learn about the Robotics Team
- Summer STEM for Fratt Elementary
  - After Summer School Program
  - 1st through 5th grades
