

JOIN THE 10,000 ALLIANCE!

Calling All Rookie Teams!

We are **Team 10011, the Gem City Gridrunners**, and we are beyond excited to be competing in our very first year of FIRST Robotics! As **rookies**, we understand the challenges, the learning curves, and the thrill of stepping into this incredible community. That's why we want to create something bigger than just ourselves—a way for rookies to lift each other up, share insights, and stand strong together at the World Championship and beyond.

That's where the 10,000 Alliance comes in!

We believe that rookie teams can make a real impact, and by forming a network of new teams, we can exchange ideas, strategize, support each other, and celebrate every win—big or small! Competing in FRC is an unforgettable experience, and we want to make sure every rookie team feels the strength of **community and teamwork**.

Why Join?

- **Connect** with fellow rookies and build lasting relationships.
- **Share** strategies and problem-solving techniques.
- **Support** and cheer each other on throughout the competition.
- **Show** that rookies can compete and succeed on the biggest stage.

We are thrilled to be here, and we invite **YOU** to be part of something special. Let's make our mark together and prove that rookies are a force to be reckoned with!
