

Team Updoot Two

G108: FIELD DAMAGE Damage to field elements which creates a HAZARD will be ignored by the REFEREES, but the damaged element will NOT be eligible to be scored in for the rest of the MATCH. Additionally, the ALLIANCE responsible for the damage will be required to repair the element.

Examples of HAZARD dangers include but are not limited to:

- Rapid React HUB falling or tipping
- Damage to the central structure which results in structural instability
- Damaging the charge station in a manner that creates a ramp-like structure.

Added Award: Queen of the Comp Award:

The robot that absolutely slays the most receives the **Queen of the Comp award!**
