

HOUSTON SHIPPING

Have you qualified for championships and need a way to get all your equipment to Houston? Do you want some extra time working on your robot before you arrive at the world stage?

Team 4201 has partnered with NEXT Trucking to provide an opportunity for local teams to send their equipment to Houston and back at no cost!

Your team will just need to bring your robot and equipment to NEXT headquarters on **Saturday, April 11th** so it can be loaded on a truck to Houston! The equipment will arrive before load in on **Wednesday April 15th**.

If you have any questions or are interested in this opportunity, please send a message to vitruvianb@gmail.com. Teams need to reserve a spot on the truck by completing this survey by Monday, April 6th.

NEXT Headquarters

Address:

2383 Utah Ave Ste 108,
El Segundo, CA 90245
